The only cure.

The Southdown sheep wash in the only effectual cure for the scab in sheep, the Botanicians in the Banda Oriental, not in this province have universally tried it when the wool began to fall off and now they reap the benefit; every sheep in their flocks gives an entire fleece; the value of the wool saved by the timely application of this remedy would more than pay for all the sheep wash which the farmer might require for the next twelve years.

So many remedies have been advertized and failed that the agents feels he has to contend with a direct prejudice, but reasons of the principal sheep Estancieros have used the wast and proved its utility he can confidently refer to those parties if necessary

THURSDAY, NOVEMBER 27, 1862.

MR. MURRAY'S CASE.

It is hardly credible that the Provincial Government of Buenos Aires would resort to the measures which it has taken to put Mr Zimmerman in possession of the S. Fernando Railway, without first being well advised as to the consequences. Either the minister of this province must be incompetent for the office which he fills, and is rushing headlong into the matter, without due consultation; or there exist laws and decrees in this country of which the public are ignorant, and which justify the arbitrary intervention of the Executive in a purely civil dispute.

It seems admitted on all sides that the contractor was arrested, and kept eight or nine hours in custody, and that the man who gave the order for his arrest was a private interested party, who, accompanied by the officers of the law, went down to Mr Murray's premises, to violate his person and property.

It is admitted that the moment the National Government was notified of Mr Mc Lay arrest, they at once ordered his liberation. It is also admitted that whilst Mr Murray was being hurried off to prison—unjustly, as is proved by his immediate liberation — the agent of the company took forcible possession of the line, furniture and works. If the agent had been alone, or unaccompanied by the authorities of this country, the matter would resolve itself into a personal dispute; but deeply do we regret that to is is not the case, and the *onus probandi* is thrown on the enlightened provincial Minister to justify both himself and his Government before the public—the more particularly as we are informed, on good authority, that Gov. Saavedra knew nothing whatever of the matter, until after the occurrence.

We are told that the Government had a special right to interfere in the matter; that they recognise only the company, and not the contractor; but we appeal to that the contractor has his rights nevertheless, and we deprecate, in the strongest manner, such a summary process of ejectment.

Anxious to treat this matter coolly, and to avoid all unnecessary express ons of feeling in the matter, we reserve all further remarks until the case comes more fully before the public; but we cannot avoid suggesting that the matter should be immediately brought before the Federal courts of the nation.

The matter has caused a good deal of excitement though town. It is not our wish to foment agitation; but there is a decided opinion, on the part both of Porteños and Englishmen, that Mr Murray has been scandalously treated, and must be indemnified.

Guarnuteed.

EDITOR'S TABLE.

We learn with much regret that poor Gilligan is dead: this is the second victim in the Guardia Monte tragedy, and we do hope that the Government will take every measure to have the assassin caught.

We see in yesterday morning's *Tribuna* another famous local event respecting the injury the *Standard* is doing the country abroad: but we refer our readers to our packet review of yesterday and leave them to judge for themselves.

The dispute about the San Fernando Railway, or B. Ayres Northern company, is the talk of all town. Mr Doria, the British minister, has sent Mr Murray a dignified reply, and there is every probability Mr M. will be reinstated in his property. It appears now that Sr. Elizalde, the Minister for Foreign Affairs, and who was formerly Mr Murray's counsel, advised him not to give up the railway, until he was paid: and we trust he will see Mr Murray through the affair, as he acted, all along upon his advice.

The project of Dr Velez Sarsfield, relative to Nationalizing the Bank of Buenos Aires, is a grand scheme; but we doubt much if the Government will be able to carry it out. If the Finance Minister's plan is sound, he may count on the STANDARD for support, and that we will carry him victoriously over all the opposition brought to bear against him; but currency, to be sound or good, must be convertible: we want something else besides happy memories or pleasing associations, to represent the paper currency of the country, and the sooner this nonsensical notion of adoring the old Bank, merely for its antiquity, is abolished, the better for the money market.

In the Banda Oriental there seem to be some queer things taking place. We refer our readers to another column for details.

Whether it runs in the blood, or is the effect of corrupt institutions, it is indisputable that S. American republics have acquired a notoriety for civil war. Intercourse with Europeans, the enlightenment of the age, and many other civilising influences, might be expected to work a healthy revolution of feeling in these new countries; but unfortunately, too many of the natives are obstinate as the Chinese in preserving old customs.

In Bolivia they have been fighting for several days: 300 lives were sacrificed in the city of La Paz, but the Government has returned victorious: they are very jealous of foreign annexation while preparing, themselves, to subjugate their neighbor, Ecuador.

MONTE VIDEO.

Dr Luis Margarinos, one of the Editors of El Pueblo, Captain Soriano of the Money steamer, Colonel Acosta, Captain Amaro and several others had been put in prison, on the supposition that they were the agents of a revolution which would have been effected under the direction of General Flores and the ex Vicar Veral

These measures had given considerable alarm, and shewed the illiberal policy of the Government.

The following list of outrages has been sent by a correspondent of the Nacion Argentina.

D Manuel Flores, brother of the General, resisted the orders of arrest against him, defeated the party and escaped.

Colonel Carabajal, got fifty men toge ther in Minas, fought the party which went to take him and killed three of their men.

Major Guzman, shot the commissary who went to arrest him.

In Pando, a young officer Burgos was killed by those who went to take him, he having shot one of the party, son of Colonel Burguezo, Chief of Police of the Department of Maldonado.

CORRIENTES.

We have received papers up to the 20th November.

The proposal of Sr. Silveira to obtain a concession for the planting of tobacco and yerba, was strongly opposed in the papers.

The balance of the paper currency of the province showed a circulation of 121,000 m rd dollars.

PARAGUAY.

We have received our files up to the 15th November, they contain as usual little matter of interest.

The works of the railway had advanced one mile, and rails and machinery were short y expected to continue it.

Rain had been very abundant in the agricultural districts and the prospects of the cereals and other crops were very good.

A great review had taken place in which general Lopez had made his first official appearance as President of the Republic.

WILLIAM DORIA Esq.

Chargé d'affaires of H. B. M.

The undersigned begs to call the attention of the British minister to the violent seizure and unlawful retention of his property by some persons pretending to act as agents of a so-called Northern railway Co. with the tacit or express consent of the local authorities. He insists on his right to regain possession of such property and as no order or legal decision has been passed by any tribunals competent or otherwise, it is a direct outrage on private property to attempt to settle pending difficulties in this manner.

The minister will please note that some police officers assisted at the spoliation, which gives it the appearance of an act of Government. As a British subject, relying on the protect on of the Crown which you represent, he demands prompt redress, and is resolved to bring the matter ultimately before the British nation, Parliament and Ministry. Meantime in view of the recent outrage, committed by imprisoning the undersigned during 8 hours and a half as a common malefactor, it is incumbent on the British minister to seek the only satisfaction which can be immediately rendered—viz. the restoration of his chattels and property on the above-named line of railway of which he is contractor.

EUGENE MURRAY.

SAN JUAN MINES.

STANDARD Office,
Nov 27, 1862.

Messrs Oro and Rickard.

Gentlemen,—On receiving your polite letter, and assurance that our demand for five shares was gratefully accepted by the company, we were happy to find our names identified with Argentine industry. We mentioned before that our action was not a speculation, but a wish to assist you in your praiseworthy efforts for national progress. It surprised us, therefore, not a little that you neither thought fit to publish our letter in the native papers, nor remained civil enough to invite us to the meeting of all friends of the enterprise, on Monday evening. As we are not court-flatterers nor seek to bask in the sunshine of Presidential smiles, you may have thought us unworthy guests for Gen Mitre's drawing-room: be it so. You assumed, however, a right which cannot be admitted, to elect *three directors* at the meeting from which we were purpo ely excluded

Our number of shares was the same as taken by Pres. Mitre, Vice-President Paz, Sor. Riestra, or any other state notability, and it is not presumptuous to say we had labored more than all three, during the last year to promote the S. Juan mines. It was, therefore, a direct wrong to deprive us of the liberty of voting, enjoyed by the rest; and we cannot suffer tamely that our rights should be ignored so flagrantly. Furthermore in the list of fashionable share-holders published by you in the *Sigl* and *Tribuna*, our name, among others are omitted, although appearing in your report, in to-day's *Standard*.

Sincerely sympathising with a work which we conscientiously advocate we regret to be obliged, for self dignity, to retire from your body of shareholders, and beg you will blot out our names from the list.

Wishing you every success
We remain
Your ob. servants

SAN JUAN MINING COMPANY.

On last evening a select and influential meeting of the principal capitalists of Buenos Aires was held at the house of his Excellency the President for the purpose of discussing the objects of the above company and adopting the most efficacious measures for commencing the share li, in order to commence operations without delay:—The best possible feeling was displayed on the part of the gentlemen present, to further the views of His Excellency and establish firmly an industry which must at no distant period form a most important branch of commerce, and make manifest to the World the immense resources and wealth of the interior provinces of the Argentine Republic. The results of the meeting were most satisfactory, and in short the San Juan Mining Company may now be considered as virtually formed, there remaining only 116 share to be subscribed for,—and which might have been also taken up by those present were it not that a general feeling existed that the public should have an opportunity of subscribing. In the unanimous vote of the shareholders present the following gentlemen were named directors in Buenos Aires —Don Juan Cano, William Leslie Esq., and Don Ambrosio Lezica,—who have already taken the necessary steps to have the first calls paid up, and dispatch the Engineer of the Company Mr. Rickard, for Europe to purchase the machinery and materials necessary for the Establishment.

The number of shares taken in San Juan is 461 making a total of 954—95, 4008 the capital of the Company, being $ 110,000.

The grand political results to be hoped for in the carrying out of the objects of this Company are the civilization of the interior provinces, and an immense increase of population, which two grand objects once attained will form a firm basis for many years of peace and tranquility. No doubt many of the capitalists of Buenos Ayres have entered into this business with pure patriotic feeling for the advancements of the Republic and as a means to develop its internal resources: but a little later on the affair must assume its real and natural position, that of a first rate speculation, which will pay more interes ces on capital, than probably any other investment in the country: we may cite as an example the celebrated silver mines of Potosi and Copiapo. The former when discovered was a mere Indian village with a few miserable huts, and in the course of a few years became a populous city of more than 100,000 inhabitants, The wealth which those mines have produced is almost fabulous and for nearly 3 centuries continued without interruption to produce silver in more or less quantities than at present. It is considered a good one that produces an average ley of 16 ounces to the cajon or 40 ounces silver to the English on whereas in San Juan the average ley of the most abundan ores is more than 168 ounces. the English ton, or 63 marcs to the cajon then on the otherhand Po osi may be considered as a mere hillock in comparison to San Juan where there is an extension of nearly, 60 leagues land crossed and incrusted with monster veins highly charged with Argentiferous and auriferous ores of a class most easily extracted and the best suited to simple metallurgical operations for the separation of the precious metals.—From the San Juan silver mines we hope to see very soon the ponderous bars of silver and gold tumble into our market here, and be quickly equal to any S. American Republic which will be the means of giving the whole Argentine Nation a great name and a vast commercial credit in Europe. F. I. R.

LOCAL EVENTS.

THE BLOODY LOCAL EVENT. We refer our readers to a local event in yesterday's "Tribuna" entitled "The bloody Rail-road".—This even beats Billingsgate, and is a direct insult to the Community in which that paper circulates.

RIO COLORADO.—We are very glad to hear that the Government are taking measures for a proper exploration of the Colorado river in Patago nia.

Common sense shows that this should be the natural Indian frontier of the province, suitable for immigration with a good navigable river for a boundary, abounding with lumber, fish, fruit &c.

If the measures proposed by the Government are properly and efficaciously prosecuted we judge the result equal in importance and more immediately beneficial than the Carlobos railroad or Salado navigation.

FINE HOUSE.—Next door to the Bolsa, there is in course of construction, a large and handsome house of three stories high, with a very large number of rooms, suitable for brokers offices.

We are informed that it is the property of Mr Edward Lumb

SAN FERNANDO RAILWAY.—The commissioner appointed by the Government to inspect the Northern RR. Co. have gone over the road yesterday and on the part of the Government have approved of it. The execution train made the trip in ten minutes.

PARANA.—The authorities had taken measures for the apprehension of the culprits, who committed piracy in the river Paraná, and their filiation had been published in the papers.

SALADO NAVIGATION Co.—The National Government have given a small force to the enterprising Sr. Rams for the expedition of the Salado and we are very glad to hear that the officer selected to command it, is Lieutenant Colonel Alvarez Condarco, former subsecretary of state at the Parana.

He is a man of great intelligence and practical knowledge, and will be of the greatest service to the expedition. He speaks English well, like Sr. Rams, therefore our countryman Dr. Hutchinson will have pleasant companionship which is a great boon in such a tedious and, to a certain extent, perilous journey.

THE PACKET The mail per Morsey closes to-day at the British Consul's office at 12.

On Change.

November 29th

Ounces opened at 387 1/2 and closed at 389, 3328 having been sold on 'Change.

4220 for Saturday at 387 1/2 to 388 1/2
420 for December at 388 1/2 to 387 1/2

Total sales amounting to 10,745 ounces.

In the places there have been considerable sales chiefly of wools as follows.

Wool Sales amount to about 12,000 arrobas as follows. 1200 arrobas fine merino, private terms; 800 do do do 1000; about 2000 arrobas good do at 92 to 98 and about 1,000 middling do and mixed from 76 to 88.

Dry hides 700 camp hides at 107, 240 do at 105, 500 do at 102, 1100 do at 102 to 106.

Bleeps kins 300 dozen sold between 120 and 180.

Hair. 150 arrobas south at 96.

Horns. 500 dozen at $ 12.

Hair. 30 bales Paraguay hair at 35 1/2 rls.

Freights—British brigs delivered to road in the Uruguay her cargo picked sect for Brazils at 4, 5 and 6 da and 5 per cent.

Three freights have been effected for bales and dry hides for England—Northern Continent, particulars of which we shall in the course of to publish tomorrow.

Cattle—500 novillos at the Patagones at $175.

The wool market presents a rather extraordinary aspect; while really good wools command an excellent price any second class article moves heavily, one of the greatest proofs of this is that the wool of Sr. Saunders estancia was sold about 3 weeks since, on contract at $100 to-day one of the medianeros on the same estancia, could get no more than $90 per arroba, which clearly shews the difference of prices within the last three weeks.

We learn that Mr Pranges wool from her estancia in the Banda Oriental amounting to some 12,000 arrobas has been sold to-day great satisfaction is observed as to the price but as for as we can learn 5 1/4 patacones is what was paid.

Mr Pranges estancia is probably one of the finest in the Banda Oriental, the great expense Mr P. has gone to in building suitable accomodations for the flocks, the large sums expended by this gentleman in introducing the very best sires from Europe prove that in time to come the Banda Oriental will be a great wool producing country as well as any in South America on a par with that of Australia or even Europe.

To our friends in the Banda Oriental we cannot omit recommending the establishment to their notice as we learn from good authority that the

best Rams in the Oriental Republic are to be got at Mr. Pa. establishment. The total amount of exchange drawn for this packet is a Pule over $ 220.000 and the exchange market closed firm at 66 shilling for best names.

English Breed Horses.

Belgrano's easy victory on the 19th November, beating General Homo's Patria [illegible] fastest and best native horse in South America], proves the superiority of these cattle. They have only to be brought to the post, and they will prove themselves.
The attention of parties interested in the turf and the breeding of horses, is called to the superior stud mares colts, and fillies, of Mr. FATH AMS, Chacra, Cuta Teja road, whose blood, bone, symmetry and sinew have no equal. The sire Elcho's prestige and performances are too well known in the "Racing Calendar" to need recommendation; and for constitution no horse, ever imported, surpasses him. Inspection is desired. For particulars apply in Buenos Ayres at 204 Calle Victoria, or to the owner, at Salchera N.B.—Elcho's progeny are all winning horses.
